The ML180E comes with a 20-year limited warranty on the heat exchanger and a 5-year limited warranty on remaining covered components.\*\*

\*AFUE, or Annual Fuel Utilization Efficiency, is a measure of how much usable heat is generated when natural gas is burned in the unit. The higher the AFUE, the more heat you'll get from your natural gas, and the less gas you'll have to use to stay warm.

\*\*Covered components may be eligible to receive a 10-year limited warranty. Online equipment registration at [www.lennoxregistration.com](http://www.lennoxregistration.com) is required within 60 days of installation (except in California and Quebec) or Lennox' base warranty will apply.
